Experience

Creative Front-End Developer

Freelance (Upwork & other platforms)

2017 – present, Tbilisi, Georgia

During the years of contract-work, I was participating in both short- and long-term projects. My clients were individual developers, big product teams, as well as digital agencies and design studios. In the Upwork platform alone, I have 160+ completed jobs with 5.0/5.0 average success rate (public reviews available). My profile was featured as “Best SVG freelancer to hire” and “Best WebGL freelancer to hire”.

- Graphic programming
- 2D and 3D animations: scroll-driven animations, logos, interactive maps and infographics, product customizers, VR experiences
- Motion design and storytelling
- Data visualizations
- Regular front-end tasks

FAE / Product Manager

EFO Ltd., 2012 – 2017, St. Petersburg, Russia

- Embedded software development:
C & assembly language, low-power MCUs, various sensors, graphics controllers
- Product presentation and marketing

Education

- Master of Engineering, 2012 – 2014, St.Petersburg Polytechnic University
- Bachelor of Computer Science, 2008 – 2012, St.Petersburg Polytechnic University
