- SVG: design, coding, animation
- HTML5 Canvas
- Graphics and animation frameworks: GSAP, d3.js, cannon-es, Babylon.js, PIXI.js, etc
- Figma, Photoshop, Illustrator, Blender

EXPERIENCE

Creative Front-End Developer

Self-employed, Tbilisi, Georgia
2017 - present

As a freelancer / contractor I've worked with various clients, from indie devs to big teams, and from product companies to digital agencies. On the Upwork platform alone, you can find a track record of 200+ completed jobs with public feedback (average score 5/5). My profile has been featured as the 'Best SVG Freelancer to Hire,' 'Best WebGL Freelancer to Hire,' and 'Top Rated Plus'.

The areas where I have the most extensive experience are
- Graphic programming
- 2D/3D visualization
- Interactive animation
- Performance optimisation
- Motion design and storytelling

I'm skilled in developing graphic and motion-related web applications: scroll-driven transitions, animated logos, interactive maps, infographics, browser games, 3D product configurators, VR experiences, physics simulations, data visualizations, etc.

Field Application Engineer / Product Manager

EFO Ltd., St. Petersburg, Russia
2012 - 2017

- Embedded software development for low-power MCUs, various sensors, graphics controllers. Mostly C & assembly language
- Product presentation and marketing, engineers tutoring
